

Blended First Aid at Work – e-module details.

This First Aid at Work elearning module allows learners to complete the full 18 hour First Aid at Work qualification as a blended course.

Description

This elearning module has been designed to give learners the theoretical knowledge needed to accompany 2 days of practical face to face training day and meets HSE requirements for the First Aid at Work qualification.

Course content provides learners with the theoretical knowledge to:

- understand the role and responsibilities of the first-aider
- assess the situation and circumstances in order to act safely, promptly and effectively in an emergency
- administer first aid to a casualty who is unresponsive (including seizure);
- administer cardiopulmonary resuscitation and use an automated external defibrillator
- administer first aid to a casualty who is choking
- administer first aid to a casualty who is wounded and bleeding
- administer first aid to a casualty who is suffering from shock including anaphylactic shock
- provide appropriate first aid for minor injuries (including small cuts, grazes and bruises, minor burns and scalds, small splinters)
- recognise the presence of major illness (including heart attack, stroke, epilepsy, asthma, diabetes) and provide appropriate first aid
- administer first aid to a casualty with:
 - injuries to bones, muscles and joints, including suspected spinal injuries;
 - chest injuries
 - burns and scalds
 - eye injuries
 - sudden poisoning

Duration: Approximately 6 hours

Access: This online course can be completed on any PC or mobile device.

ELEARNING FEATURES

- Our online module appeals to all learning styles with interactive quizzes, video and audio features
- It allows you to work at your own pace, testing your knowledge as you progress through the course

- It provides a very thorough resource for those with English as a Second Language, giving you the vocabulary, language skills and confidence to pass the practical course.

Assessment*: Knowledge checks after each section of the course and an end of course multiple choice assessment

Certification: On successful completion, learners can download a certificate as evidence that they have passed the course
